

Why Hire a Professional Home Remodeler?

If you are considering a home remodeling project, the most important decision you can make is selecting a professional home remodeler to do the job. Your home is too important to entrust to anyone but a *professional* home remodeler who can:

- Save you money by doing your job right the first time.
- Ensure that your dreams are accurately translated into reality by offering design services in-house or through an arrangement with a professional architect or designer.
- Understand that your comfort during the project and its successful completion depend on effective communication and follow-through.
- Maintain a safe and neat job site to prevent damage to your home or injury to household members and pets.
- Provide the best possible materials within your budget and assist you in making selections through the vendors they work with.
- Ensure that your job meets or exceeds applicable building codes and regulations such as the EPA Lead Paint rule for work on homes built before 1978.
- Guarantee the quality of their work with a warranty.
- Respond promptly to service calls and inquiries.

For more information call us at 719-592-1800 or visit cshba.com/councils.
